CAREER OBJECTIVE

Passionate Web Developer with a strong foundation in React.js, Python, and AI technologies. Skilled in building interactive, responsive web applications and integrating intelligent, data-driven features. Eager to contribute innovative solutions that bridge modern web development and artificial intelligence.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), React.js (v18), Python (v3.12), SQL
Frameworks: React.js, Node.js (Basic), Pandas, NumPy, Matplotlib
Tools: Git, GitHub, MySQL, VS Code, Chrome DevTools
Platforms: Visual Studio Code, IntelliJ IDEA, GitHub Pages, Netlify
Soft Skills: Team Collaboration, Problem-Solving, Time Management, Communication

EDUCATION

Bachelor of Technology (B.Tech)

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow, India

June 2023 – August 2027 | GPA: 7.46 / 10

PROJECTS

Recipe App

Tech Stack: React.js, HTML, CSS, JavaScript, API Integration

- Developed a responsive recipe app using a public API to search and filter recipes by name.
- Designed a modern, mobile-friendly UI using Flexbox and Grid layouts.

Portfolio Website

Tech Stack: React.js, HTML, CSS, JavaScript, GitHub Pages

Description:

- Designed and deployed a personal portfolio website using React.js and GitHub Pages.
- Increased recruiter engagement time by 40% through improved layout and UI design.
- Integrated React Router for seamless navigation between sections.
- Optimized React components for faster rendering and better performance.

MealMate - Food Delivery Web App

Tech Stack: HTML, CSS, JavaScript, React.js

- Developed a responsive food delivery web app inspired by Zomato, allowing users to browse restaurants, view menus, and explore cuisines.
- Designed a modern, user-friendly interface using CSS Flexbox and Grid, ensuring seamless experience across devices.
- Built modular React components for restaurant cards, filters, and navigation to enhance code reusability and scalability.

ACHIEVEMENTS

- Solved 150+ Data Structures & Algorithm problems on LeetCode and CodeStudio.
- Focused on Arrays, Strings, Recursion, Stacks, Queues, Trees, and Dynamic Programming.
- Improved problem-solving and optimization through regular coding challenges.
- Uploaded code and learning resources on GitHub for community sharing.

ADDITIONAL INFORMATION

Actively exploring AI integration with Javascript and Data Visualization with Python.

Open to internships and collaborative projects in Web Development or Data Analysis.

Committed to continuous learning, clean code, and creative UI development.
